

## Product Name – **Economy L Bracket Berm** (Constructed in low-cost LDPE)

### Product Features

- Made from a variety of UV, chemical and acid resistant materials
- Many standard and custom sizes available
- Several accessories available
- Cost-efficient and appropriate for lower budgets
- Lightweight aluminum brackets
- Easy to set up, maintain and dismantle
- Most common and widely used in many industries

The Economy L-Bracket is manufactured with sidewalls that easily set up with lightweight aluminum L-brackets. This cost-efficient spill containment option is made from a variety of chemical and acid resistant materials that provide unrivaled spill containment. The removable brackets also provide for easy drive-on and drive-off.
